-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The indicated allowability of claim 23 is withdrawn in view of the reference(s) to Duh ('100), Zebold et al ('512), Baader ('502) and McFarland ('366). Rejections based on the newly cited reference(s) follow.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Zebold et al (512) in view of Duh ('100), Baader ('502) or McFarland ('366).

Zebold et al discloses a mirror assembly for a vehicle comprising a mirror housing (21), a first reflective element (40) having a first field of view; a second reflective element (41) having a second field of view, the second field of view being wider than the first field of view; and a backing assembly (28,44) supported by the mirror housing, the backing assembly supporting the first reflective element and the second reflective element, note figures 1-6 along with the associated description thereof, except for an indicator light assembly being supported by the housing.

Duh, Baader, and McFarland each teach it is well known to use and attach indicator light assemblies to a mirror housing of a vehicle in the same field of endeavor for the purpose of indicating/signaling other drivers the intent of a particular driver to promote safe driving conditions.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the mirror housing of Zebold et al to include an

Art Unit: 2872

indicator light assembly, as taught by Duh, Baader or McFarland, in order to signal/alert others drivers the intent of a particular driver so as to promote safe driving conditions.

4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the backing assembly supported by the mirror housing and the backing assembly supporting the first reflective element, the second reflective element and the indicator light assembly must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2872

5. Claims 24-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

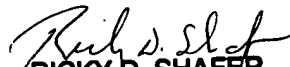

6. Claims 30-34 are allowed.
